

Monday 8/3/2015

- Tribal Team meeting
- Arrow Pipeline meeting with Jeff Stovall/Houston Stations 1-6, Station 7 not included in TV permit application. Requested map of interconnections between 6 stations. No information except forms. Crestwood bought Arrow Pipeline.

Tuesday 8/4/2015

- APMM permit meeting in am.

Ex. 5 - Deliberative Process

- U&O FIP meeting. Checked out G drive Ft Berthold FIP files.

Wednesday 8/5/2015

- Walk around Deseret Bonanza public relations/communications with Matt Langenfeld G drive. ML out of office, returning week of August 31. First task, update newspaper and tribal contact list. Critical path for publication is Tribal nspr, does not accept purchase cards, talk to a woman who is the sister of someone on the board.
- Cindy Beeler Minor Source Data mining U&O projects. This is the **bottom up** data collection for U&O. Excellent maps and graphics. Alexas did a fabulous job. Gives a great map of O&G facilities on the U&O, many facilities not in MERLIN. 5/6 gas plants do not have TV applications. 3000 sources not in MERLIN. Good background data for U&O FIP.
- Cindy Beeler U&O IR scope of work. This will give **top down** emissions data for the U&O. Excellend scope of work. Jim Eppers in Enforcement said, Enforcement will not fund. Talked to Travis and Garrett Eppers about potential ways to get funding. R6 had a contract for IR flyover, need sole source justification. Enforcement mechanism to collect company funds for specific corrective activity. Is this funding only available to Enforcement? Might be a potential sell to UDEQ ala Dennis Downs/Marty Gray.
- Logistics for Tue/Wed field trip next week, hard hat, safety glasses/car pool with DJ. Logistics and schedule for Mandatory COOP on Thursday, take laptop home on Monday.

Thursday 8/6/2015

- Leave

Friday 8/7/2015

Ex. 5 - Deliberative Process

- Clearing desk for start of U&O FIP.

Planned work week beginning August 10, 2015.

- U&O FIP scoping mtg Dec Mon. Field Trip Tue/Wed. COOP telework Thur Review Ft Berthold TSD.
